Page 18, col. 2, footnote: There is
 a discrepancy between the time given
 here for the complete rotation of the
 pendulum, and the time given in the
 drawing on page 16. The time given
 in the footnote is the result of a more
 refined calculation performed after
 the cut had been made. This fact
 should have been mentioned in the
 footnote.

With Number 5 of this volume,
 PD has, we believe, set itself a new
 record for typographical errors. We
 trust this record will stand unbroken.
 Readers who discover errors are re-
 quested to write us.—EDITOR.
